SUMMARY

AI/ML Engineer & Data Scientist specialized in **Agentic AI systems** and scalable ML pipelines. Working with **RAG workflows**, LLM fine-tuning, and multi-agent orchestration. Proven track record in deploying production-ready models using **MLOps, Docker, and FastAPI**.

SKILLS

Programming Python, SQL, TypeScript/Next.js

Machine Learning & MLOps Scikit-learn, TensorFlow, PyTorch, NLTK, Spacy, MLflow, XGBoost, Keras., MLOps, Model Fine-tuning(LoRA), Model Versioning., FastAPI, Docker, CI/CD Pipelines for ML, ONNX., Transformers, OpenCV, YOLOv8

Data Science & Analytics Streamlit, Gradio, Tableau, Power BI, Matplotlib, Seaborn, Pandas, NumPy, Scikit-learn, Exploratory Data Analysis (EDA), Hypothesis Testing, Feature Engineering, Plotly

Generative & Agentic AI LangChain, LangGraph, OpenAI API, Anthropic, Hugging Face., Multi-agent Orchestration, Autonomous Agents, Tool-use/Function Calling, Self-Correction Loops., Semantic Search, Context Window Optimization, Hybrid Search, ChromaDB, FAISS, N8N, Make.com

Languages English

PROJECTS

Broadway Pizza Chatbot [Link](#)

- Developed a RAG-based chatbot for Broadway Pizza Pakistan using Python, Gemini LLM, and SQLite. Eliminated hallucinations by grounding AI responses in a local relational database for menu and pricing accuracy. Features: Integrated an interactive shopping cart, automated order placement, and a Streamlit web UI.

Pothole Detection (YOLOv8) (Edge-Ready Pipeline) [Link](#)

- Trained and optimized YOLOv8 models on annotated road images; exported artifacts and inference scripts for edge deployment. Documented throughput and inference-time metrics for real-world scalability.

SpaceX Launch Analysis & Prediction Dashboard [Link](#)

- Built an end-to-end ML pipeline using SpaceX API data, simulated weather, and Random Forest Classifier for launch success prediction. Integrated into Streamlit dashboard with data filtering, Folium geo-maps, caching, and custom inputs. Supports scheduled retraining and containerization; achieved high accuracy with focus on MLOps.

Heart Disease Dashboard & Prediction (Clinical & Monitoring) [Link](#)

- Engineered features from 1,025 patient records; trained Logistic Regression with k-fold CV (80-87% accuracy). Deployed interactive Streamlit app with visualizations and monitoring for data drift and cohort performance.

Real Estate Price Prediction Dashboard (Business-Facing Tool) [Link](#)

- Developed Random Forest Regressor with GridSearchCV hyperparameter tuning (high R-squared scores). Created interactive Streamlit UI with data summaries, prediction tools, interpretability notes, and automated monthly feature refreshes.

Secure Data Encryption System (Streamlit App) [Link](#)

- Built a secure note storage app with salted PBKDF2-hashed passwords, Fernet encryption, and lockout mechanisms.

EXPERIENCE

Lead Trainer

SMIT (Saylani Mass IT)

Dec '25 — Present

Karachi

- Taught Data Science and Machine Learning (ML/DL) using Python, guiding large batches of students from basic data analysis to building complex neural networks. Instructed students on Power BI for data visualization and mentored hands-on projects to solve real-world problems through data-driven insights.

AI Engineer

Saylani Welfare Trust

Oct '25 — Nov '25

Karachi

Collaborate with teams and integrate the AI chatbot and the AI Analysis Tool to transform the internal working platform

Data Analytics Job Simulation

Deloitte(Forage)

Aug '25

Sydney (Remote)

- Built Tableau dashboard, applied forensic analysis, and documented business findings.

Business Development Officer
Habib Bank Limited (HBL)

Jan '24 — May '24

Karachi

- Collaborated with teams to acquire clients; used data-led research to prioritize leads and drive business growth.

Customer Service Representative
ibex. Pakistan

Jun '24 — Oct '24

Karachi

- Resolved 200+ daily inquiries; tracked recurring issues and recommended process improvements, reducing repeats.

EDUCATION

B.Tech, Virtual University

2025 — Present

Pakistan

Intermediate, Government Superior College

Karachi

Matriculation, The Metropolitan Academy

Karachi

CERTIFICATIONS

Saylani Mass IT Training Programme Data Science Python Practical Training, SMIT
